Henry+Horne named among 2017 Most Admired Companies in Arizona

Henry+Horne was named one of the 2017 Most Admired Companies in Arizona by BestCompaniesAZ and Az Business Magazine. This is the Firm's third year receiving this honor.

The goal of Arizona's Most Admired Companies program is to identify and promote the best Arizona companies based on leadership contribution and employee, customer and community opinions. The program recognizes the contributions and impact the companies bring to the state.

While one hundred companies are nominated each year, only forty receive the prestigious corporate award. Arizona's Most Admired Companies are selected based on demonstrated excellence in six categories: how the company has performed in workplace culture, leadership excellence, corporate and social responsibility, customer opinion and innovation.

According to Az Business Magazine, the qualities recognized by the award program are the characteristics that build great companies and the recipients truly represent the best of the best in Arizona.
