Henry+Horne Builds Community with ToolBank

Tempe—September 26, 2022— Henry+Horne team members lent their hands to helping build a better community when they spent the day at ToolBank.

Volunteers put elbow grease into tool prep and cleaning on Saturday. They performed some general maintenance on ToolBank stock and helped the nonprofit organize and clean their warehouse while filling orders and taking returns.

Phoenix ToolBank offers tools and equipment to a variety of community-based partners to strengthen and celebrate the shared community. ToolBank tools range from power tools to support building projects. Handheld tools such as shovels for planting community gardens, painting supplies for rehab/upkeep projects and even items such as tables and chairs for events. By investing in ToolBank, nonprofits can equip volunteers and staff to support projects without having to redirect agency funding away from their critical missions. This also allows the nonprofit to avoid storing and maintaining the tools, which may only be used for a one-time project or infrequent enough to provide additional cost versus benefit to the organization. ToolBank increases the capacity and impact of the local volunteer community. When provided access to tools, charitable organizations are empowered to work on the front lines of the most entrenched problems facing our community.
